Technology Contracting and Consulting

Matrix Capital Trust is a forward thinking technology contracting and consulting firm specializing in improving digital access and creating scalable economic impact. Whether empowering entrepreneurs, supporting economic revitalization projects, or leading digital inclusion efforts, Matrix Capital Trust is committed to equity, growth, and empowerment through innovation.

Our expertise lies in innovative business development and strategy consultant, financial technology solutions, managed IT services, AI-driven technology services, and educational S.T.E.A.M. programming and tech awareness campaigns. We serve as catalysts for sustainable change by delivering cutting-edge solutions that bridge the digital divide and stimulate economic growth in underserved urban communities.

At Matrix Capital Trust, our success is built on a community first model that integrates education and economic advancement, a tech forward strategies aligned with market demands and scalable solutions. We do not just offer services; we build ecosystems and high-impact partnerships that shape inclusive technology landscapes.

CEO | Matrix Capital Trust

Technology Contracting and Consulting

At Matrix Capital Trust, our team brings together over 50 years of collective experience across technology integration, business consulting, financial strategy, and community infrastructure development. With a rich background in public-private partnerships, telecommunications, and digital innovation, we leverage this cross-sector expertise to build sustainable, tech-enabled ecosystems. Our leadership has successfully managed multi-million-dollar projects, implemented broadband expansions, designed AI-powered solutions, and secured funding for small businesses and nonprofits. We do not just consult; we execute with precision, purpose, and a commitment to inclusive progress.

WHO WE ARE

At Matrix Capital Trust, we are movement builders, bridging innovation with inclusion. Through strategic alliances, thought leadership, and tech-forward infrastructure, we are shaping a new standard for connectivity and empowerment in urban communities. By placing people at the center of progress, we are architecting the future of equitable access, digital fluency, and economic mobility. Establishing both network affiliates and community partners, we are positioning ourselves as the go-to when it comes to information and technology, aligning with our slogan as the "Vanguards of Communications."

WHAT WE DO

We aggregate and implement managed service solutions tailored to help businesses grow, scale, and sustain success—especially in underrepresented markets. Our technology-driven ecosystem supports community development through economic opportunity, emphasizing education, employment, and entrepreneurship.

With a unique blend of IT consulting, funding support, and digital transformation strategies—including artificial intelligence and automation—we help clients streamline operations and realize measurable impact.

Differentiators:**Equity-Focused Tech Innovation**

We are more than a consultancy—we are change agents. Our services are built to address systemic barriers in underserved communities, deploying AI, digital infrastructure, and broadband access to empower long-term success.

Holistic Community Engagement

Through strategic partnerships and programs, we drive grassroots awareness of the tech sector and align emerging talent with real-world opportunities, making us a trusted connector in the technology ecosystem.

End-to-End Business Empowerment

From concept to capital, we support entrepreneurs and SMBs with funding pathways, market entry strategies, and operational tech support.

Community-Driven Innovation

Our approach prioritizes inclusive, equity-centered growth. We partner with public and private entities to bring tech infrastructure to urban areas – unlocking opportunity through education, employment, and entrepreneurship.

Integrated Tech & Capital Solutions

We're one of the few firms that blend AI technology services with business financing expertise. From digital transformation to funding access, our solutions are comprehensive and future-ready.

Proven Partnerships & Scalable Programs

With a track record of success in structured partnerships and community promotions, we are recognized as trusted collaborators by municipalities, nonprofits, and enterprise clients alike.
